Node.js Developer / Full-Stack **JavaScript**

Full-Stack developer with **8+ years** delivering mission-critical software across telecom, cybersecurity, and SaaS. Deep **JavaScript/TypeScript** expertise with a strong focus on **Node.js** (APIs, microservices, performance) and **React/Next.js** on the frontend. Experienced with **REST APIs**, **Jest**-based testing, **Git**, and **CI/CD**. Proactive, hands-on, and relentless about performance and code quality. **Portfolio:** www.nievas.dev

WORK EXPERIENCE

Antel

Full-Stack Developer / Sr Web Developer

Montevideo, Uruguay

Apr 2022 – Present

- Developed **Node.js microservices** handling **up to 3.5M daily transactions**, integrating **SQLite databases** and **SFTP services**.
- Performed **large-scale refactoring** across **Next.js** and **Node.js** projects, **reducing deployment times by 40%**.
- **Optimized** and designed internal processes across multiple applications while coordinating cross-functional teams, accelerating response time by **50%** and reducing errors by **99.9%**.
- Defined the Git workflow (GitLab) with code reviews and CI/CD, raising test coverage to **85%**.

Upshow

Full-Stack Developer

Uruguay

Jul 2021 – Mar 2022

- Built **React** dashboards consuming **Node/Express** APIs.
- Integrated external services (**GitHub**, **Jira**), generating **real-time cross-referenced reports** for the team.
- **Agile/Scrum** workflow; supported the **full lifecycle** from planning through release.

Hacknoid

Full-Stack Developer

Uruguay

Apr 2018 – Jul 2021

- Migrated the frontend from **Zend PHP** to **React.js**, improving **perceived load time by 60%**.
- Collaborated on **repository and branch management in Git**, establishing **branching strategies** for releases and hotfixes.
- Optimized SQL queries, reducing response times by **40%**.
- **Designed and developed developer tools** to support the application's **long-term maintainability**.

Gestión Total

Full-Stack Developer

Uruguay

Apr 2017 – Apr 2018

- Developed **custom JavaScript modules** for an **ERP system**, tailoring workflows to client needs across diverse industries.
 - Implemented **UI layouts** with **HTML5** and **CSS3**, ensuring **responsive design** and **visual consistency**.
-

EDUCATION

ORT University

B.S. in Information Systems (in progress)

Montevideo, Uruguay

2025

TECHNICAL SKILLS

- **Languages/Frameworks:** JavaScript, TypeScript, Node.js, Express.js, React.js, Next.js.
- **Relational DBs:** MariaDB, PostgreSQL, MySQL
- **Version Control:** Git (GitLab, GitHub).
- **Testing:** Jest, unit and integration tests.
- **APIs/Quality:** RESTful APIs, performance tuning, security best practices.
